

WIRELESS INTERNET OPTIONS

Eduroam

Georgia Tech students, faculty and staff and other participating educational institutions may connect to the eduroam network from anywhere on campus.

Free Guest Wifi Using GT Visitor

Free WiFi is available to all guests who visit the Exhibition Hall and West Village Dining Commons. The free Wifi network has limited bandwidth at 3 megabits/second and is intended for use to accomplish simple tasks on the internet such as checking email.

1. On your device, locate and connect to the SSID **“GTVisitor”**.
2. Next, you should get a prompt to login. If you are using a laptop, you may need to open a browser page first and attempt to navigate to a new website. Mobile devices should automatically bring up the login page or show a message stating you need to login.
3. Once the page is loaded, you should see a page that looks like this:

4. For free access, select the login button.

Guests who require additional internet bandwidth should purchase premium guest Wifi code(s) by emailing SCreservations@mail.gatech.edu prior to their event.

Premium Guest Wifi Using GT Visitor

Premium Guest Wifi codes must be requested by emailing SCreservations@mail.gatech.edu one month prior to the event. Each Premium WiFi code costs \$4 and provides bandwidth at 10 megabits/second.

1. If you need a public IP address, faster speed, or to enter a prepaid PIN, you will need to use the Premium Access option. If you have signed up for the premium wi-fi before, you should already have a username and password. If you have forgotten your password, select the **Forgot Password** option at the bottom of the page under premium access. The form will ask for your email address. Alternatively, you may call 404-478-7310 for assistance with your password.
2. If you do not have a username and password, you will need to create an account. In this case choose the **New User** option. You should get the following page:

The screenshot shows the 'GT Visitor Internet Access' website with a 'New User' registration form. The form is set against a background image of a city skyline at night. The form includes the following sections:

- Instructions:** 'You'll need to create a username and password for your account to get started. Please follow these simple steps.'
 - 'Enter and confirm email address and password (the password can be anything you choose but must be at least 4 characters long).
 - 'For future password recovery, you're required to choose 2 security questions, answer them, and then hit the Create Now button.'
 - 'Your account has now been created, you can now add session time. Choose a payment method.'
 - 'From the Billing and Plan Selection page, fill it out and hit the Confirm button.'
 - 'A summary page then asks you to confirm all information by clicking the Submit button.'
 - 'A processing window may pop up while the system runs the transaction.'
 - 'A Thank You page shows your purchased time and asks confirm with the Confirm button.'
 - 'You are now online and free to browse at will!'
- Email Address:** Two input fields for 'Email Address' and 'Email Address (Confirm)'. A dropdown arrow is visible on the right of the second field.
- Password:** Two input fields for 'Password' and 'Password (Confirm)'. A dropdown arrow is visible on the right of the second field.
- Security Questions:** A section titled 'Security Questions' with the instruction 'Security questions are questions you may use to recover your password if you are to forget it.'
 - 'Question 1: In what city did you meet your spouse/significant other?' with an 'Answer 1' input field below it.
 - 'Question 2: What is the name of your favorite childhood friend?' with an 'Answer 2' input field below it.
- Create Now:** A green button at the bottom of the form.

3. Fill out the requested information and choose **create now**. Password must be at least 4 characters long.
4. The next page will show the following:

5. If you have a prepaid pin, choose the **Login Using a Prepaid PIN** option. It will take you to the following page:

6. Enter the prepaid code provided to you by the event manager. If you need a Public IP address, select the box next to I need a Public IP address before selecting submit. Select Login on the next page.
7. If you do not have a prepaid code, you will need to select the **Login using a Credit Card** option instead. You should arrive at the following page:

Georgia Tech **GT Visitor Internet Access**

Billing and Plan Selection

Billing Information

First name is required.
 First Name User Last Name
 Email Address
 Street Address
 Country City
 State ZIP Code
 State Zip Code

Rate Plan

Select Your Rate Plan:
 Select a plan below
 I need a Public IP address

Credit Card Information

Credit Card Security Pin
 Card Type
 Expiration Month Expiration Year

8. Fill out the billing information section on this page (email address will already be populated). Choose the best **Rate Plan** based on your situation. Options are as follows:
 - a. 1 Day - \$3
9. If you will need a public IP address, select the box next to I need a Public IP address in the Rate Plan section.
