

# CONNECTING TO CAMPUS WI-FI

## Instructions

### Eduroam

Georgia Tech students, faculty and staff and other participating educational institutions may connect to the eduroam network from anywhere on campus

Login info will be your full .edu email (Ex: tuser@gatech.edu) and password you use to login into your .edu email

### Free Guest Wi-Fi Using GTvisitor

Free WiFi is available to all guests who visit the John Lewis Student Center and Exhibition Hall.

1. On your device, locate and connect to the SSID "GTVisitor".
2. Next, you should get a prompt to login. If you are using a laptop, you may need to open a browser page first and attempt to navigate to a new website. Mobile devices should automatically bring up the login page or show a message stating you need to login.
3. Once the page is loaded, you should see a page that looks like this:

4. For free access, select the login button.

# CONNECTING TO CAMPUS WI-FI

## Premium Wi-Fi

Please be informed that Wi-Fi access for The Academy of Medicine will require a request via the Event Reservation Coordinator (ERC). The access code will be provided on the day of the event, and the cost is \$5 per day.

Premium service includes increased data speeds, technical support, and a public IP address. Premium services can be purchased through the portal in increments of 1 day, 1 week, or 1 month. The access duration is contiguous and based on the time since login, not on the device's connection time. Unused GTVisitor passes do not expire.

## Upgrading to Premium Wi-Fi

If you selected the "Free" option and require increased speeds, navigate your browser to <http://4.5.6.7> to log out of your existing session.

Increased speed rates (for up to 10Mbps/s) for GTvisitor are as follows:

- \$3/day
- \$10/week
- \$30/month

If you have previously signed up for premium Wi-Fi, enter your username and password. If you've forgotten your password, select "Forgot Password" and follow the instructions, or call 404-478-7310 for assistance.

If you do not have an account, select "New User" option and complete the registration form. Passwords must be at least 4 characters long. You should get the following page:

The screenshot shows the "New User" registration page for GT Visitor Internet Access. The page is titled "New User" and includes instructions for creating an account. It features input fields for Email Address, Password, and Security Questions. The background of the page shows a night view of a city skyline with illuminated buildings.

Georgia Tech | GT Visitor Internet Access

### New User

You'll need to create a username and password for your account to get started. Please follow these simple steps:

Enter and confirm email address and password (the password can be anything you choose but must be at least 4 characters long).

For future password recovery, you're required to choose 2 security questions, answer them, and then hit the **Create Now** button.

Your account has now been created. You can now log in and browse. Choose a payment method.

From the Billing and Plan Selection page, fill it out and hit the **Confirm** button.

A summary page then asks you to confirm all information by clicking the **Confirm** button.

A processing window may pop up while the system runs the transaction.

A Thank You page shows your purchase time and date. Confirm with the **Confirm** button.

You are now online and free to browse at will!

**Email Address** **Password**

**Security Questions**

Security questions are questions you may use to recover your password if you are to forget it.

# CONNECTING TO CAMPUS WI-FI

The next page will show the following:

If you have a prepaid pin, choose the “Login Using a Prepaid PIN” option. It will take you to the following page:

Student and Campus  
Event Centers

# CONNECTING TO CAMPUS WI-FI

Enter the prepaid code provided to you by the event manager. If you need a public IP address, select the box next to "I need a public IP address" before selected Submit. Select "Login" on the next page.

If you do not have a prepaid code, select "Login using a credit card" and complete the billing information.

The screenshot shows the "Billing and Plan Selection" form for Georgia Tech's GT Visitor Internet Access. The form is overlaid on a background image of a city skyline at night. The form is divided into several sections: "Billing Information" with fields for First Name, Last Name, Email Address, Street Address, Country, City, State, and ZIP Code; "Rate Plan" with a dropdown menu and a checkbox for "I need a Public IP address"; and "Credit Card Information" with fields for Credit Card, Card Type, Security Pin, Expiration Month, and Expiration Year. A "Next" button is located at the bottom of the form.

Choose the appropriate rate plan based on your needs:

- 1 Day - \$3
- 1 Week - \$10
- 1 Month - \$30

If you need a public IP address, select the corresponding box in the rate plan section.

Fill out your credit card information (Visa, MasterCard, American Express, or Discover) and click "Next."

The system will ask you to confirm the information you entered. Verify that it is correct and click "Submit."

**Note: Your card will be charged!**
