

## POLICE/SECURITY REQUIREMENT

At the discretion of the Student Center, a GTPD officer or approved security company can be required for any event held in the Student Center regardless of event time or expected attendance.

Georgia Tech Police Department (GTPD) or an approved security company must be present for any event held in the Student Center with 70 or more participants and an ending time after 10 p.m. The officer will be required for the duration of the event. This requirement is in place for the safety and protection of Georgia Tech students, faculty, staff and visitors to the Institute.

The Georgia Tech Student Center will arrange for security and/or police. Security costs associated with the event will be added to each reservation and payment must be received prior to the start of each event.
