* Lane restrictions and/or lane shifts will occur along Ferst Drive, impacting all vehicular traffic from 8:00pm to 4:00pm, daily. There will be a flagger present to assist with traffic flow.

* Alternating sidewalk closures will be required. Pedestrians will be required to cross at the crosswalks to move past this area.

* A new entrance to Deck W02 will be constructed to facilitate continued use of the deck once the Campus Center project begins. The current entrance and exits will remain unchanged until May, when the new configuration will take effect.

* The parking deck and adjacent surface lots will remain open during this period.
