Homecoming 2018
Rulesbook

Presented by SCPC Homecoming Committee
HELLO YELLOW JACKETS!

The time for the one of the best weeks in the fall semester is just around the corner! For Homecoming 2018, students around campus are creating designs for chalking, practicing their routines and passes for powderpuff cheer and Frisbee, brushing up on their lip synching skills for Mock Rock, and some are going through interview questions to potentially be crowned Mr. or Ms. Georgia Tech. Whether you are a new student or about to graduate, Homecoming is open for the entire campus to enjoy, so get excited for this year’s theme:

SHIPWRECKED AT TECH

To celebrate Homecoming 2018, we have some amazing events in store just for you! Kicking off with one-long week of Scavenger Hunt, be ready to use those tricky clues to find the hidden treasures across campus. Train yourself for Battleship to see which team will sink in the shortest amount of time. Not only can you watch all of these events, but you can also be part of the Homecoming Carnival and design for the Chalking event. Don’t forget about our traditional Homecoming events: the Freshman Cake Race, the Mini-500, and the Ramblin’ Reck Parade!

Many students and campus organizations have been working hard for months to make this Homecoming great, and we would especially like to thank Student Center Programs Council, the Interfraternity Council, the Panhellenic council, the Ramblin’ Reck Club, the Student Government Association, the Resident Hall Association, the Alpha Phi Omega Fraternity, the African American Student Union, the Georgia Tech Alumni Association, National Pan-Hellenic Council, Multicultural Greek Council, TEAM Buzz, the Georgia Tech Athletic Association, and all the faculty and staff who have provided their support.

Let’s take pride in being a Yellow Jacket and celebrate Georgia Tech! Remember to enjoy this week of fun and conclude this year’s Homecoming 2018 game as the Jackets play Duke on October 13th! Go Jackets and good luck!

Gloria Chan
SCPC Homecoming Chair

TEAM CATEGORY DEFINITIONS

The various organizations that contribute to Georgia Tech's Homecoming have come together and decided to incorporate more of the student population in the Homecoming events. This year, there will be five categories for the different types of teams participating. Below are their definitions.

Enthusiast Teams: Any group of friends that decides to form a team. Their team will not be affiliated with any established club, organization, or residence hall. They will only be eligible to compete in certain events in order to keep costs for this bracket as low as possible.

Clubs and Organizations: Any Georgia Tech established club or organization can form a team and compete under their organization’s name as a Homecoming team. The only established organizations that do not fall under this category are Collegiate Panhellenic Council Sororities, Interfraternity Council Fraternities and Residential Hall Association housing teams.

Housing Teams: Groups consisting of students who live in the same floor, building, or residence under the same hall council of an on campus residence hall may join this group. Please see your hall director before registering, as your team will need to fill out only one application.

CPC Sororities: Sororities that are members of the Collegiate Panhellenic Council will compete in this bracket. All other sororities will be considered part of the “Clubs and Organizations” bracket.

IFC Fraternities: Fraternities that are members of the Interfraternity Council will compete in this bracket. All other fraternities will be considered part of the “Clubs and Organizations” bracket.

There is no limit on the number of teams a student may belong to. However, a student may only compete on one team per events.

If any questions arise about team categories, please contact Gloria Chan at homecoming@scpc.gatech.edu.

**WHEN:**
Monday, October 1st, 2018
10am-12pm

**WHERE:**
IC Lawn

**ENTRY FEE:**
$4

**DESCRIPTION:**
Teams may have 8 members, 6 to form the pyramid, 1 to lay in front of the pyramid, and 1 runner. The member lying in front of the pyramid will have a cup balanced on their head. Teams will have 1 minute to form their pyramid. After a minute, runners will take one egg at a time, run it 25 feet to their team's pyramid, and toss the egg to the top member of the pyramid. This member must then crack it such that the yolk lands in the cup atop their team member's head. At this point, the runner may run back to retrieve another egg, and the process repeats. After 2 minutes, the committee chairs will count the number of eggs in each cup. Points will be awarded for participation, 1st place, 2nd place, and 3rd place.

**EVENT DETAILS & RULES:**
- All of the teams in each bracket will have to check-in at a specified time. If the team does not check in at the events within 15 minutes after the specified time, the organization will be disqualified from the event.
- A maximum of five teams from each bracket are going to compete at one time.
- Multiple teams will participate in this event simultaneously. Any interference with the opposing team will result in both disqualification and a loss of participation points.
- Interference includes obstructing the other team or tossing eggs anywhere other than to the team member at the top of your pyramid. Obstruction is called at the discretion of the Event Chairs.
- No padding of any kind (kneepads, elbowpads, etc.) will be allowed for those in the pyramid, as judged by the Event Chairs. Pyramids must be built "on hands and knees" style - other formations will result in disqualification. Excluding the member on top of the pyramid, the elbows of participants in the pyramid must be straight at all times.
• If the runner obtains more than one egg at a time, his/her team will be disqualified and will lose participation points.
• If a team's pyramid falls, that team remains in the game. However, that team will not be allowed to score until the pyramid is back in place. While the team recovers, the clock will continue to run.
• The participant on the ground will lay in front of the pyramid on their back, their head flush with the ground. Said participant may wear protective goggles, but no snorkel masks allowed.
• The person who cracks the egg must make an honest attempt to toss the shell of each egg away from the person lying directly beneath the pyramid. "Honest attempt" will be judged by the Event Chairs.
• The volume of eggs will be measured to determine who wins.
• The runner must not cross the 6 feet line when throwing the egg. If he/she does it will result in disqualification.

**RULES 9 AND 10 WILL BE STRICTLY ENFORCED**

SAFETY

1. Safety will remain the most prominent consideration for all Wrecks. No Wreck will be allowed into the parade if its operation is unsafe to spectators or its operators. This is at the discretion of the Parade Chairmen.
2. All passengers must wear seat belts (with the exception of certain classic cars that are legally exempt from seat belt laws). Seat belts are defined as anchored straps that buckle across the hips to protect a seated passenger from an abrupt motion. Seat belts must be securely attached to the Wreck.
3. All passengers must be at least 18 years of age and sign the SCPC Homecoming waiver before participating in the parade.

3. Brakes are required and must be demonstrated and deemed safe by the parade chairmen before the parade.

7. Wrecks will be required to keep a minimum safe following distance of five car lengths.

8. As dictated by Fire Codes, all Wreck constructions must be performed no less than 25 feet from any building. Organizations with limited workspace may build in an area provided and wired by Georgia Tech Facilities. This location may be obtained by filling out a Space Request Form available in the Administration Building, Tech Tower, on the 4th Floor and discussing space availability with Tom Kirby in that same office.

9. A Wreck may be disqualified at any time at the discretion of the Parade Chairmen on the grounds of safety.

**ENTRY REGULATIONS**

1. A first inspection will take place on Wednesday, October 18th. This inspection is meant to point out rules violations to the organization. These violations should be fixed by the final inspection, which will be held Friday, October 28. These inspections are not meant to qualify or disqualify a group, although the parade chairmen may disqualify a group at this time. The final Wreck will be inspected the morning of the parade, and if the rules have not been followed it will be disqualified at that time.

2. All Wrecks must be completely self-propelled (no push power) to receive points for time, and must be so designed to enter the Parade.

3. All Wrecks must start on the parade route under their own power.

4. No separate units are allowed unless they are re-attachable parts of the Wreck.

5. The maximum height for Wreck is 13’ 0”. The maximum length for Wreck is 60’0”.

This control must be demonstrated on the morning of the parade. A “Dead Man’s” control is defined as a switch that removes the power to the Wreck. The ‘principal operator’ is defined as the operator of the vehicle that is directly responsible for starting, stopping, and steering the Wreck. If more than one principal operator is needed, there must be one
“Dead Man’s” control per principal operator per motor.

7. All Fixed Body and Contraption Class entries must be equipped with two securely mounted hooks (tow hooks) at both the front and back of the Wreck.

2. Wrecks that break down on the Parade Route will be immediately pulled to the side and allotted five minutes in which to make the necessary repairs to finish the course. For Fixed Bodies and Contraptions, this five-minute period will be counted as part of the overall time allotted for the Wreck to complete the route. Only one such grace period will be granted per entry. Failure to make the Wreck operational will result in disqualification.

3. Each entry must have no less than two and no more than five representatives to follow the Fixed body, and no less than three for the Contraption through the route to assist in the event of mechanical failure. Description:
Would you like to join the ranks of Janis Joplin as a UMOC champion?! Since the 1960s, chapters of Alpha Phi Omega have been sponsoring annual UMOC competitions on college campuses across the country. At Georgia Tech, UMOC is also part of the many Homecoming activities each year. The goal is the find the “Ugliest Man” on Campus. It's all in good fun, so be civil please! As part of Alpha Phi Omega’s ongoing commitment to service to the campus and community, the proceeds from UMOC are donated to a local charity or volunteer effort. Some of the programs that have benefited from our chapter's efforts include the Bobby Dodd Center, Puerto Rican Hurricane Relief, Invisible Children, Animal Savers Rescue, Lotus Foundation, and the Pancreatic Cancer Action Network.

EVENT DETAILS & RULES:
● The purpose of this competition is raise money for charity by voting to find the “ugliest” man on campus.
● The person does not need to be a man. Contestants must be full-time students at Georgia Tech or Co-Op students recognized by the Division of Professional Practices.
● The purpose of the photograph is to show the contestants at their "UGLIEST." It is recommended that contestants be creative!
● These photos will be affixed to buckets during the campus-wide voting period
● Contestants may submit a regular or digital photo with their application on Oct. 1th. Digital photos should be emailed to Maria Garcia-Chinchilla at treasurer.apo.gz@gmail.com.
● The deadline for all photo submission is Monday, October 1st. The photographs may not be digitally altered (photo-shopped or filtered!) in any way.

● A participating group can request their photo be returned after the competition is over. Otherwise, the photos will become property of Alpha Phi Omega for use in advertising future UMOC contests.

● Members of APO will place voting jars in the Student Center Lobby for campus-wide voting the week. Each jar will have a contestant's picture as well as organizational affiliation attached to it.

● The voting table will be open from 11:00 AM until 2:00 PM each day. Votes will be cast by dropping money into the jar.

● The monetary value of all coins will be counted as positive votes. The monetary value of all paper money will be counted as negative votes. For example, if you wanted to give $10 worth of positive votes (1000 votes), one (1) roll of quarters would be dropped in the jar. If you wanted to give $10 worth of negative votes (-1000 votes), a $10 bill would be dropped in the jar. To add points to a group, drop in coins. To subtract points from a group, drop in paper money. Only money is to be placed into the jars. Please, no tokens or other objects in jars.
