Homecoming 2019 is taking place on from October 21st to November 2nd, and you have the opportunity to create the logo!

This year’s theme is “Medieval Times”. Submissions must be submitted by Friday, April 5th, 2019 at Noon.

HOMECOMING 2019 LOGO CONTEST

Rules and Requirements
• Contest open to Georgia Tech students only. Entrants must be current full-time or co-op undergraduate or graduate Georgia Tech students.

• All submissions must contain a primary graphic that embodies the theme “Medieval Times”. An alternate design (such as the design on the front of a t-shirt being a complement to the back design) is also required. Designs that do not pertain to the theme face immediate disqualification.

• In order to be considered in the contest, the design must adhere to Georgia Tech licensing and trademark policies. Please refer to www.licensing.gatech.edu/licensing and www.licensing.gatech.edu/on-campus for Georgia Tech’s trademark polices.

• It is preferred that Buzz be incorporated in the design.

• Georgia Tech official colors should be incorporated in the design. Red is not allowed in the design.

• Designs that incorporate Georgia Tech registered trademarks may be hand drawn or scanned since official Georgia Tech Licensing and Trademarks cannot be provided for the development of the design contest. If scanned or hand drawn logos are used in development of your design, these entries will receive appropriate consideration and the winning entry will get the necessary high-resolution files of the registered trademarks for the final production.

• All submissions must be in digital format and able to be modified.

Technical Information
• Vector image files are preferred (i.e. Adobe Illustrator files). Photoshop .PSD files, JPG and other bitmap formats are acceptable, but the graphic should be large enough and high enough resolution for print up to a size of 3600 pixels (12 inch) in the largest dimension.

• All graphics should be designed at 300 DPI.
• Logos should contain no more than 6 colors for t-shirt printing purposes.  
Any entry that does not comply with these policies and specifications will be subject to disqualification.

Awards and Price Information
• Students are able to submit multiple designs for consideration.

• Winning artwork is subject to approval by Georgia Tech Licensing, thus the artist must be willing to edit their design based on feedback of the Homecoming Committee and requirements of Georgia Tech Licensing.

• The designer of the winning logo will also receive up to a $150 contract, as the Homecoming Committee reserves the right to use elements from more than one submission. Payment for the work constitutes ownership of the design by the Student Center Programs Council. Students that are employed by the Institute will receive payment through direct deposit based on payroll; however, non-Tech employees will be paid through their Bursar’s Account.

All submissions are due by Noon on Friday, April 5th to homecoming@scpc.gatech.edu.

Questions? Please email Andrew Lee at homecoming@scpc.gatech.edu.
